## Safety on the Ship:

- The USS Yorktown is constructed of steel. No running or horseplay at any time. You can fall and sustain serious injury. Please walk everywhere you go while on the ships and pier.
- There is a fence surrounding the Flight Deck. It is to keep visitors off catwalks. Catwalks are 65 feet above the water and at high tide there is only four feet of water on the Starboard side of the ship. No one is allowed on the catwalks.
- Do not play on, climb on or crawl under any plane. They are historic artifacts and must be treated with care.
- Youth sailors are not allowed to go anywhere by themselves. You may use the buddy system, but adults and chaperones must know where you are at all times.
