SPIRITLINE DINNER CRUISE

FREEDOM is our greatest shared value as a nation. At Patriots Point, we honor the brave individuals who risked their lives to defend that freedom. We tell the stories of young men from every corner of America who lived on this ship - a floating city - and served with an unwavering commitment to American ideals. Each man was responsible for a specific duty in support of their country, their ship, and their fellow servicemen.

We are proud to share stories, both big and small, to connect generations with all who served, and the cherished values of our great nation.
