

Educator Professional Development

A Patriots Point Activity Kit How-To

Date: 10/12/2026

Time: 10:00am-2:00pm

Location: Patriots Point Naval and Maritime Museum

Facilitating Parties: Patriots Point Naval and Maritime Museum's Education Department

Direct Contact Hours: 4

Cost: Free

Lunch Included

Objective: To demonstrate integration of science, engineering, math, social studies, and art using Patriots Point Naval and Maritime Museum's Collection

Themes/key words: WWI, WWII, navigation, astronomy, angles, longitude, time zones, geographic influence on military strategies, light, periscopes, submarines, camouflage, balanced/unbalanced forces, weather, climate, geography, engineering, potential energy, kinetic energy, trade/global trade, global interdependence

Overview: Participants will explore creative ways to connect cross-curricular content in their classrooms with lessons from our 4 free activity kits. Focus will be placed on completing the Pilot Training: Celestial Navigation kit during the allotted professional development time with portions of the day dedicated to the remaining kits.

- Elementary Science & Social Studies Activity Kit
- Catapult Science, Engineering and Social Studies Activity Kit
- Get Dazzled: STEAM into Camouflage
- Pilot Training: Celestial Navigation

For more detailed information on the kits, please visit: [Patriots Point Educational Resources Page](#).
